Professional Experience

Software Development Engineer in Test(SDET) – LTIMindtree

December 2024 – Present

- Developed and maintained automation utilities and validation frameworks to improve application reliability and release quality across enterprise systems.
- Collaborated with developers and cross-functional teams in Agile environments to analyze workflows, debug issues, validate APIs, and support end-to-end feature delivery.

Freelance Experience

Full-Stack Developer (Freelance)

Jan 2025 – Present

- Developed and deployed responsive full-stack web applications for businesses, individual clients, and service-based workflows using React.js, Node.js, Express.js, and MongoDB.
 - Collaborated with clients to gather requirements, implement scalable backend APIs, optimize user experience, and deliver production-ready web solutions with authentication and cloud deployment.
-

Education

Bachelor of Technology (B.Tech) in Computer Science, Noida Institute of Engineering and Technology, Greater Noida
November 2020 – October 2024 | CGPA: 7.9

Projects

Intellichat – AI-Powered Full-Stack Application

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Gemini API

June 2024 | [GitHub](#) | [Live](#)

- Developed an AI chat platform facilitating brainstorming, learning support, and language translation, enhancing user engagement and productivity.
- Implemented secure user authentication and session management to ensure data privacy and security.
- Prioritized clean code, maintainability, and user-centric design to improve user experience and application scalability.

Bakery Management Web Application

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Cloudinary, Resend

June 2026 | [GitHub](#) | [Live](#)

- Built a production-oriented full-stack bakery management PWA with role-based access for customers, admins, and staff.
 - Developed scalable REST APIs and modular backend architecture for product management, orders, authentication, and analytics workflows.
 - Implemented JWT authentication, Email verification using Resend, Cloudinary multi-image uploads, order tracking, and customer address management features.
 - Deployed the application using Vercel and Render with support for future integrations like Razorpay payments and notification services.
-

Technical Skills

- Languages:** JavaScript, Java, Python
 - Frontend:** React.js, Vite, Tailwind CSS, Zustand, HTML, CSS
 - Backend:** Node.js, Express.js
 - Databases:** MongoDB, Mongoose, MySQL
 - Tools & Platforms:** Git, GitHub, VS Code, Cloudinary, Vercel, Render, Google Cloud Platform
 - Concepts:** REST APIs, JWT Auth, MVC Architecture, PWA, Agile
-

Certifications

- Google Cloud Fundamentals: Core Infrastructure – [Coursera](#)
 - Essential Google Cloud Infrastructure – [Coursera](#)
-

Achievements & Leadership

- Led a team at LTIMindtree Kalinga Campus for training projects, demonstrating leadership, strategic planning, and teamwork skills.
